Event Presenters:

PTS Solutions has been providing software in the Public Safety sector for nearly 25 years. Our interoperable software includes solutions for Law Enforcement Records Management, Jail and Warrants, Computer Aided Dispatch, Mobile Dispatch and Field Reporting, Investigations and Internal Affairs, Probation, Sex Offender Registry, Courts, Mapping, Fire, and more. We recently added a new web based mapping and AVL Solution that utilizes Microsoft's Silverlight technology. This Map uses the Microsoft Bing map displays that allows for Road view or Aerial view. This map will allow users to view units in a 'real-time' mode or switch and run avl replay.

PCS Mobile is a nationally recognized leader in value-added solutions, specializing in mobile data, video, wireless and voice applications. We offer a diverse group of quality products, cutting edge services and unique solutions to optimize productivity in your mobile workforce. PCS Mobile offers the industry leading ruggedized Panasonic Toughbooks and Gamber-Johnson vehicle mounts and docks for your mobile computer platforms, along with on-site installation into your vehicles.

The **SI-3000 VFC** (Virtual File Cabinet) allows total integration for management of all the PTS printed reports and scanned/imported documents and images. I/tx-SI-3000 also offers a complete suite of integrated Imaging tools and applications that include, mass import of crime scene Images, gangs & graffiti, PVC ID cards, gun permits, SORNA compliant sex offender registration and fingerprint livescan integration. Our newest product/ service provides public access to accident reports and citations via the Internet and the agency's website.

Gamber-Johnson has been a premier designer and manufacturer of car, truck, van and SUV laptop desk mounting systems since 1954. Their quality laptop desk mount components easily mix-and-match to fit the client's needs. In fact, Gamber-Johnson has the widest variety of in-stock laptop desk mount products, laptop desk car mount accessories and vehicle computing options in the industry, to ensure the configuration process is quick and easy.
