## Bookmarking To Your Smart Phone

---

### Android:

### Adding a Bookmark to Your Android:

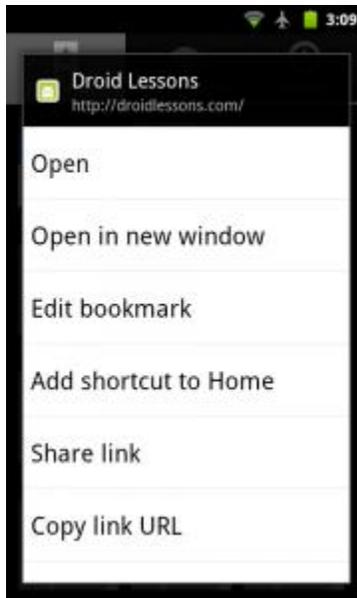

1. Launch the web browser on your device
2. Go to your favorite website.
3. Press the "Menu" button on the bottom of your phone.
4. Select "Add Bookmark".
5. Your Bookmark is added.

Now that you have a Bookmark set for one of your favorite sites, you are now ready to add a bookmark to your Android home screen.

---

## **Adding a Bookmarked Website to Your Android Desktop/Home Screen:**

### **Option 1 (Galaxy Phones):**

1. From your phone's Desktop press "Menu".
2. Select "Add".
3. Select "Shortcuts".
4. Select "Bookmark".
5. Select the desired Bookmark, once selected it will automatically be placed on your phone's Desktop.

### **Option 2:**

1. Launch the web browser on your device
2. Press "Menu" button.
3. Select "Bookmarks".
4. Long press any Bookmark and then click "Add Shortcut" to Desktop.

### **Option 3:**

1. Long press on a blank area on your Desktop.
2. Select "Shortcuts".
3. Select "Bookmarks".
4. Choose the desired Bookmark of the website that you want to link on your Desktop.

### iPhone:

## Adding a Website to Your iPhone Desktop/Home Screen

1. Open your Safari browser and go to the website that you would like to make a shortcut to.
2. For demonstration purposes we will use GottaBeMobile.
3. Once you are there tap the “Share” button at the bottom of the screen.

4. Next the iPhone will show the following options. Tap “Add to Home Screen”.

## Bookmarking To Your Smart Phone

5. You can then change the name of the icon to what you would like it to display as and press “Add” in the top right corner.

6. A shortcut will be added to your iPhone’s Home Screen.

7. Now you have an easy way to add shortcuts to your home screen for quick access to your favorite sites.

## Bookmarking To Your Smart Phone

### Windows Phone:

## Adding a Website to Your Windows Phone Favorites

## To Browse the Web using Internet Explorer 10

1. On Start , tap Internet Explorer , and then tap the Address Bar. (You can also press the “Hardware Search”  button on your phone to search the web.)
2. Type the web address (URL) of the site you want to visit. As you type, Internet Explorer will suggest possible matches. If you see the site you're looking for, tap it.
3. If you don't see the site, tap “Go”  to search for your site.

---

## Adding a Website to Your Favorites

1. In Internet Explorer , open the website you'd like to save.
2. Tap “More”  > “Add to Favorites”.
3. Internet Explorer automatically fills in the name and web address (URL) of the site.
4. If you need to make any changes, tap inside a text box. When you've finished, tap “Done” .

**Note: At this time, you can't import favorites from your computer to your phone.**

## To Open, Edit, or Delete a Favorite

1. In Internet Explorer , tap “More”  > “Favorites”. (Or, if you've set the address bar button to favorites, just tap that.)
2. Click until you see the name of the favorite you want, and then do one of the following:
  - o To Open a site, tap it.
  - o To Edit a site, tap and hold it, and then tap Edit to type a new name or address.
  - o To Remove a site from your list, tap and hold it, and then tap “Delete”.

### **Blackberry:**

#### **Adding a Shortcut to Your BlackBerry Home Screen**

At the moment there is no way to add custom BlackBerry Home Screen shortcuts directly. But you can use third party applications or mobile sites to add icons, for example, you can add shortcut icon on your BlackBerry home screen with Launchpad app or [bblauncher.com](http://bblauncher.com).
